

1948 Buick There I was a bit of a wreck in the back shed when two men turned up to take a look at me. I heard the owner at that time say I used to belong to Harry Baker and if you take a look at the u tube link below.

The colourful life of Western Australian Pilot Harry Baker. Roustabout who grew up in the early years of aviation to Captain aircraft both within Australia and Internationally. He was a contemporary of aviation W.A.

You will see me 1948 Buick at the end of the article on Harry Baker worth a look a great story.

One of the guys seemed very interested obviously looking at my potential and low and behold I found myself being driven away. My new owner Jim drove me around for a few months and guess what once again there I was again in the shed I heard all sorts of talk about being restored but after – years of sitting in that shed I sort of gave up, until one day a lady came into the shed and saw me she must have had something to do with what happened next. A week or so later I knew I was being placed onto a trailer and did my light go on when I hear total restoration words come out of Jim's mouth.

Over the next year I had the works being stripped to my chassis and work began on a grand scale. Months passed until that day the paint work was being done it felt so good, a beautiful shiny black and my motor purred like a kitten (on steroids) Now with my body all in order the interior began finally in --- I was finished what a proud moment I remember thinking it was all worth the wait. I have been to many shows and still get the looks and comments but of course I AM A BUICK by Jim Donis
