

1948 Model 76-S Roadmaster Sedanet New Owners John & Sue Bell

John & Sue Bell surprised us at the Echuca 50th Celebration with their recently purchased Buick.

Past Owner: Owen E Mansford Owen purchased this very desirable Buick in 1998 and has now completed a total strip restoration. Historically, the car was imported into Australia when new and converted to right hand drive, with the first owner being a doctor in the Newcastle area. It remained in the Hunter Region of NSW for most of its working life eventually being used as transport for spare parts service in the timber cutting industry which probably explained the extensive damage to the underbody. Now on the road it is a great presentation of the marque and a beautiful auto. Now sold to club member Steven Guy happy motoring.
